

Organized by

In cooperation with

INTERNATIONAL WORKSHOP ON GEOTHERMAL ENERGY

8 - 9 April 2019

Canary Islands Institute of Technology (ITC)

Playa de Pozo Izquierdo s/n 35119 Santa Lucía - Gran Canaria. SPAIN

TOPICS:

- Geothermal Energy on the Canary Islands and in Spain.
- Case studies and best practises for geothermal energy use.
- Geothermal resources – identification and exploration.
- Geothermal exploitation and innovative drilling technologies.
- Geothermal Power Production.
- Geothermal Direct Use and large shallow systems.
- Social and environmental aspects of Geothermal Energy.
- Political and strategic issues.
- Funding / Financing Geothermal Projects.
- And more.

Expert Group of the IEA Technology Collaboration Programmes

DISCLAIMER NOTICE: The IEA Geothermal (also known as IEA Geothermal Technology Collaboration Programme) functions within a framework created by the International Energy Agency (IEA). Views, findings and publications of the IEA Geothermal do not necessarily represent the views or policies of the IEA Secretariat or of all its individual member countries.

Members:

Profit from the IEA - International Technology Collaboration Platform of Geothermal Energy:

- Presentations by international experts (Europe, Asia, New Zealand, Mexico).
- Learn about most efficient and cost-effective geothermal energy use.
- Hear about innovations and emerging technologies of geothermal energy.
- Enhance your knowledge and strengthen your international network by worldwide information exchange.
- Meet international experts, high level representatives and decision makers from countries worldwide, leading international companies and many more...

IEA Geothermal is pleased to invite you as a guest to the International Geothermal Energy Workshop. The conference language is English.

Registration on <http://iea-gia.org/iea-geothermal-workshop-registration/>
There is no registration fee for the workshop.
